

Prof. RNDr. Ing. Michal V. Marek, DrSc., dr. h. c.
director of Global Change Research Institute Academy of Sciences, Czech Republic

To whom it may concern

Brno, 3rd March 2016

Object: Statement from the director of the institute on the reassessment of the final report of the Commission No. 10

Together with my colleagues I would like to thank again for the effort of the evaluators and provided reassessment. We are glad that the reassessment letter provided by the Commission No. 10 complexly responses to our reaction on the Commission final report and considers our remarks despite the limited time provided for the evaluation and scientific heterogeneity of the Commission, which was, according to my opinion, little bit far from the scientific orientation of the assessed team.

Yours faithfully

Prof. RNDr. Ing. Michal V. Marek, DrSc., dr. h. c.
Director of the Institute
